Stanley-Proto: Safety Starts Here

Hand tools are safer than ever, thanks to new designs, higher quality materials, and precision manufacturing and testing. But even the highest quality tools are no safer than the person using them. The aim of Stanley Proto's safety program, titled **Stanley-Proto: Safety Starts Here**, is to spread this message and to increase general safety awareness among professionals who handle industrial tools.

This safety program is filled with the latest information on product safety, and the materials are concise and easy to follow. This combination makes them an essential tool for promoting workplace safety. This program includes:

- Safety Starts Here – DVD
- Safety Starts Here – VHS tape
- Templates for an announcement, a training quiz and a certificate
