Video: National Marker Company Sign Muscle Technology

National Marker Company | May 05, 2020

Video Highlights

National Marker Company (NMC) knows that to stay ahead in the Safety industry you need to be innovative, which is why they created their proprietary Sign Muscle Technology. Sign Muscle is a unique coding that protects signs from wear and tear, graffiti, and various situations that will affect the life of a sign.

Along with their innovative technology, NMC also provides the opportunity for customers to design **custom signs**. From design to production to delivery, NMC gets a customer their product within days of when they placed their order. National Marker Company (NMC) and MSC partner together to deliver the best possible signs to customers.
