

Innovate

VIDEO: SHOWA—A Global Manufacturing Company

Brought To You by SHOWA | Feb 07, 2020

Since 1954, when SHOWA invented the world's first PVC glove, innovation has been a pillar on which the company has been built.

They are a global manufacturing company with factories all over the world, always controlling every step of the manufacturing process and thus ensuring that every glove is high quality and provides optimal performance and protection.
