VIDEO: Data Collection in 4 Steps with Mitutoyo U-WAVE Wireless System

Brought To You by Mitutoyo | May 13, 2020

Video Highlights

Make managing your data easier in just four steps using the wireless Mitutoyo U-WAVE system:

1. First, connect the U-WAVE receiver to the PC
2. Launch the U-WAVE PAK software
3. Open your data collection software such as Microsoft Excel or other statistical process control software
4. Finally, start taking measurements
