Video: Grinding Wheel Safety–It's the Smart Thing To Do

Brought To You by Norton Abrasives | Jun 24, 2020

Video Highlights

In this video, Norton Abrasives provides valuable information on safely using portable grinding and cutting wheels. The discussion includes:

- Proper storage of grinding wheels
- Use of the correct PPE for the application
- The importance of using the correct size and speed for the machine you are using
- Use of the proper guard at all times
- Inspection of the wheel for damage prior to use
- Regular inspection and maintenance of the machine per ANSI guidelines
