Video: KenTIP FS “Making Chips, Not Conversation”

Brought To You by Kennametal | Sep 01, 2020

KenTIP™ FS covers more applications and provides better performance than any other modular system, delivering substantial cost savings and process simplifications on your shop floor. KenTIP™ FS inserts cover the entire front part of the drill. The coupling is completely protected from chip flow and contact with the workpiece. See it in action in the short video above.
