VIDEO: OSG A Brand ADO-TRS 3-Flute Carbide Drill

Brought To You by OSG | Nov 17, 2020

A Brand® ADO-TRS is an advanced performance, high feed 3-Flute Carbide Drill. Patented geometry permits stable chip ejection, even with less chip pocket space inherent in 3-flute drills. The result is up to 3x faster than 2-flute drills and up to 3x longer life. See a comparison of the ADO-TRS against conventional 3-flute drills in the short video above (*no transcript, music only*).
