VIDEO: Proper Mounting of Abrasive Products on Type 27 Grinders & Type 1 Cut-Off Wheel Tools

Brought To You by 3M Abrasives | Jan 04, 2021

In this training video, 3M Abrasives demonstrates Type 27 and Type 1 abrasives and their respective tools. You will learn how to properly mount hub and flange mounted abrasives and how to properly position the wheel on the tool and within the guard, and how to make adjustments to allow for accessibility to your workpiece. Finally, this video addresses safety issues to adhere to prior to running the tool.
