VIDEO: Creating a Safer Workplace with Kimberly-Clark Professional

Brought To You by Kimberly-Clark Professional | Jan 22, 2021

Anthony Testa, Strategy Leader Category Management–Safety & MRO at MSC Industrial Supply, speaks with Kimberly-Clark’s Chief Customer Officer, Andy Clement, about the recommendations they’re making to customers about maintaining a more hygienic and sanitized workplace.

After rattling off some hair-raising statistics regarding workplace sanitation that will make your skin crawl, Andy breaks down the various systems you can put in place to help prevent the spread of germs in your workplace. You may be surprised to learn why Kimberly-Clark recommends paper towels over jet air dryers.

Andy also goes into detail about Kimberly-Clark’s efforts to maintain environmental sustainability including their Right Cycle program designed to recycle your disposable PPE rather than it going straight to the landfill.

To learn more about how Kimberly-Clark can help you create a safer workplace, explore Kimberly-Clark’s Safety Products [here](#).
