VIDEO: Creating a Safer Workplace with MCR Safety

Brought To You by MCR Safety | Jan 26, 2021

Anthony Testa, Strategy Leader Category Management – Safety & MRO at MSC Industrial Supply, talks to Director of Marketing and Inside Sales, Chris Smith, about MCR Safety’s innovative lines of PPE protection.

MCR’s ISO certified testing lab is hard at work creating new products to help their customers control the safety concerns of their day-to-day operations. Chris details the significance of their UV anti-fog technology and MAX6 anti-fog coating systems designed to keep eyewear more manageable while wearing a respirator or mask.

Chris also explains what customers can expect from their 360 Safety Assessment that they can even perform virtually to help your business understand the return on investment of purchasing PPE with MCR.

To learn more about how MCR Safety can help you create a safer workplace, explore their products here.
