

Workplace Safety

VIDEO: Creating a Safer Workplace with Ansell

Brought To You by Ansell | Jan 26, 2021

Anthony Testa, Strategy Leader Category Management – Safety & MRO at MSC Industrial Supply, brings in Ansell’s Senior Manager of Channel Development, Scott Moore, to talk about their advances in glove protection.

With so many glove options available, Scott details the factors that companies should be aware of when choosing appropriate hand protection for their unique applications, as well as the long-term physical effects manufacturing can have on a person’s hands if not properly protected.

Scott also explains Ansell’s research and development methods that have led to improved grip technology and specific anti-microbial deniers knitted into the fibers of their gloves to help lower the risk of exposure to pathogens.

To learn more about how Ansell’s products can help you create a safer workplace visit here.
