VIDEO: Versatile and Cost-Efficient Drilling Operations

Brought To You by SECO Tools | Feb 16, 2021

Göran Melin, Global Product Manager for Drilling at SECO, discusses customers' challenges to reach an efficient balance of machining costs and performance for drilling operations in small batches as many different tools are stocked for many different operations and materials.

The new Universal Drills 8xD and 12xD from SECO offer good, predictable performance in steel, stainless steel and cast irons for the highest level of value and versatility.
