VIDEO: Guhring Grooving Systems for Turning Operations

Brought To You by Guhring | Jun 01, 2021

Known for over a century as a world-class manufacturer of round shank cutting tools, Guhring has expanded its offering to include *micro-precision holders and inserts for boring, grooving, chamfering, threading, broaching and parting*. The standard offering encompasses a wide range of widths, lengths, diameters, radii, and thread pitches to fit most of your applications.
