VIDEO: ACU-RITE and Horry-Georgetown Technical College: Shaping the Future of American Manufacturing

Brought To You by ACU-RITE | Jun 29, 2021

Horry-Georgetown Technical College has made huge investments in its machine tool programs in recent years. They decided to outfit the machines in their advanced manufacturing centers with ACU-RITE digital readouts. Why? Because they're the industry standard. ACU-RITE products have been produced in the USA since the early 1970s.

Watch the short video above to see how the partnership between ACU-RITE and Horry-Georgetown is preparing its students for a career in manufacturing.
