VIDEO: TOOLING UP—Assessing the Health of U.S. Manufacturing

| Jul 13, 2021

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

In this inaugural episode, Jamie Goettler, Director of Metalworking Sales & Business Innovation is joined by Dr. Thomas Kurfess, Chief Manufacturing Officer at Oak Ridge National Laboratory and Dr. Scott Smith, Group Leader for Intelligent Machine Tools at Oak Ridge National Laboratory in a real-time discussion about Executive Order 13806 which assessed the health of U.S. Manufacturing. They'll cover an array of important topics including:

1. The catalyst for creating the assessment
2. Findings within the assessment
3. Macro forces that are driving recent changes in manufacturing
4. Addressing improvements in the manufacturing industry
5. How these solutions impact both U.S. homeland security and the prosperity of American manufacturing businesses

Check out our *second video in the Tooling Up series* as we continue the conversation with Drs. Kurfess and Smith from Oak Ridge National Laboratory on how the U.S. manufacturing sector responded to the COVID-19 pandemic.
