VIDEO: TOOLING UP – Why HVLS Systems Are So Important in Manufacturing Facilities

Brought To You by Big Ass Fans | Aug 06, 2021

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

In this episode of MSC's Tooling Up, Eddie Saunders Jr., MSC Expert Host is joined by Adam Gilley, National Distribution Sales Manager at Big Ass Fans for a real-time discussion around the importance of implementing HVLS systems in a manufacturing environment, including the types of solutions to use throughout your facility to combat heat stress, increase workplace safety, and provide the biggest cost-savings impact.

They'll cover important topics including:

- Heat Stress Safety – workforce and facility cooling
- Custom cooling solutions for every unique facility (SpecLab Tool)
- Hidden costs of NOT having fans
- Air quality and ventilation insights
