VIDEO: TOOLING UP – Faster and Safer Electrical Testing with Innovation From Fluke

Brought To You by Fluke Corporation | Oct 15, 2021

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side by side with you to make your operations better.

Explore more Tooling Up videos here.

In this episode of MSC's Tooling Up Eddie Saunders Jr., MSC Expert Host, is joined by Sean Silvey, Product Application Specialist at Fluke, for a real-time discussion on an innovative new way to conduct faster and safer electrical testing measurements.

They'll cover an array of important topics including:

- The old school method vs. new school method of measuring electricity
- The vast capabilities of Fluke Field Sense technology and how it enables user safety
- The added value of Fluke Connect

For even more information on Fluke FC Meters and additional Fluke products and solutions, visit [MSCDirect.com](https://www.mscdirect.com). Check out these additional Fluke resources right here on Better MRO.
