VIDEO: Guhring RF100 Sharp Introduction

Brought To You by Guhring | Jan 03, 2022

New carbide milling cutters from Guhring for soft, tough and high-alloy materials. With a 12° rake angle, **RF100 Sharp end mills** are excellent at shearing gummy materials and feature reduced cutting forces. Available as standard tooling from 1/16" diameter to 1" diameter, in two lengths – also metric sizes (*music only, no transcript*).
