VIDEO: TOOLING UP – Reduce Cycle Times with the SGS HI-PERCARB 143M-S High-Performance Drill

Brought To You by KYOCERA SGS Precision Tools | Jun 06, 2022

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side by side with you to make your operations better.

Explore more Tooling Up videos here.

In this episode of MSC's Tooling Up, Eddie Sauders Jr., MSC Expert Host, is joined by Brian Hamil, VP Product Development at Kyocera SGS Precision Tools, Inc. for a real-time discussion around how you can reduce cycle times with the HI-PERCARB® 143M-S High-Performance Drill. They'll cover an in-depth overview of this solution including:

- Operator benefits such as reduction in cycle time and elimination of subsequent operations
- Review of the chip evacuation and coolant strategy
- Where this drill performs best—including a real-world case study
- Ease of tool selection
