VIDEO: Milwaukee Safety Vests

Brought To You by Milwaukee | Jul 27, 2022

The **MILWAUKEE® High-Visibility Performance Safety Vests** are designed to carry more. The high-visibility safety vest has 15 pockets including a clear ID holder, rear tablet pocket, and three internal pockets, equipping users with added storage. All front pockets are reinforced with durable 600D tear-resistant materials capable of withstanding rough job site conditions. Padding around the collar reduces pressure around the neck. The safety vest has a quick internal size adjustment, providing a better fit as well as a durable pass-through slit for fall protection gear. This allows the vest to be worn in the summer over a T-shirt or in the winter over a jacket. A zipper closure on the safety vest delivers ultimate job site security. The high-visibility reflective vests are required when working around traffic going 25 mph or working around heavy machinery. This includes construction, road construction, traffic direction, utility crews, and survey crews. Yellow and orange color options are available, as well as CSA-compliant safety vests.
