VIDEO: TOOLING UP – Mechanix Wear Gloves Address the Need for Proper Hand Protection

Brought To You by Mechanix Wear | Aug 24, 2022

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side by side with you to make your operations better.

Explore more Tooling Up videos here.

In this episode of MSC's Tooling Up, Eddie Saunders Jr., MSC Expert Host, is joined by Paul Harris, VP of Research and Development at Mechanix Wear for a real-time discussion around how their innovations in the hand protection category are truly benefiting workers on the job.

They'll cover important topics including:

- Addressing unmet customer needs when it comes to hand protection
- Providing dexterity and comfort without sacrificing cut-level protection
- Safer coatings and enhanced worker protection
