VIDEO: TOOLING UP – Pro Tips for Every Job with Kennametal

Brought To You by Kennametal | Feb 01, 2023

Video Highlights

In this episode of MSC's Tooling Up Mitch Free is joined by Keith Hoover, Kennametal's Regional Product Manager, for a discussion on Kennametal's modular drill system, KenTIP™ FS and the recently launched GOtip™. The next big innovation in the manufacturing industry, this modular drill delivers the pros of complex solid carbide drill point geometry, along with the benefits of much larger investments of large quantities of carbide without the cost. This new system allows for a more economic way to drill a large variety of materials with a myriad of geometries, substantially more versatile than the previous traditional drills. Keith and Mitch discuss further the benefits and applications of the KenTIP system, and its wide array of accessories that can improve the efficiency of your drilling processes.
