VIDEO: TOOLING UP – Applied Abrasive Automation with Norton Abrasives

Brought To You by Norton Abrasives | Jul 05, 2023

Video Highlights

In this episode of MSC's Tooling Up Mitch Free is joined by Mike Shappell, Norton's Senior Applications Engineer for a discussion on Norton Abrasive Process Solutions Lab. Recognizing a new market need for the integration of automation in abrasives, Mike Shappell takes us through his journey of when Norton Saint-Gobain tasked him with developing a robotics solution they can use with any abrasives out of their catalog. Out of this ask came the Norton Abrasive Process Solutions lab, a customer focused automation solution where abrasive processes can be fully converted from manual to automated, saving your company both substantial time and money.
