VIDEO: High Performance Solid End Mill for Multi Materials–CoroMill Dura

Brought To You by Sandvik Coromant | Apr 04, 2023 Video Highlights:

Features E

- Asymmetrical variable Helix design
- **E**Variable flute spacing
- High quality substrate

EApplication area

- WhisperKut geometry can be applied in many applications and components across multiple industriest
- ESuitable in ISO P, K, M, S and H material in the general engineering and automotive industriesE
- Applicable for a large variety of operations 世
- ₩hisperKut technology is also available for Aluminum applications in a dedicated assortment

CoroMill® Dura is a new range of high-performing versatile solid end mills. The concept offers true flexibility in roughing to finishing operations in multiple materials. The key to success lies in the unique WhisperKut[™] technology. Unequal helix angles effectively break up harmful harmonics, making smooth and stable milling easier than ever before. See it in action in the short video above (*demo only, no transcript*).
