

How-to

VIDEO: How To Know If Automation Is Right For You

Brought To You by Norton Abrasives | Jul 05, 2023

Video Highlights

Jacob Sanchez is pulling back the curtain on how the grinding industry utilizes robotics and automation to create more productive processes in this latest episode of MSC's How To.

Come see how Norton Saint Gobain innovates with YOU in mind from start to finish. Finally, a cell at a grinding technology center that can do more than just tell you they can grind your parts. They show you ways to IMPROVE grinding your parts with automation.

For even more insights and expertise, check out MSC's Better MRO knowledge hub.

"How To" is a video content series from MSC Industrial Supply developed with the purpose of serving as a resource for all those who work in, support, and have a passion for the metalworking sector of the manufacturing industry.

Through How To, you'll gain hands-on, practical advice from industry experts currently working in the field. At MSC, we are dedicated to providing real-world practical advice to improve your day-to-day operations.

For more How To videos, check out our MSC How To playlist and subscribe to our YouTube channel.

And check out our other show, Tooling Up, on the MSC Tooling Up playlist.
