VIDEO: Unleashing the Power of 3M™ Cubitron™ II Cloth Belt 984FX Pro: Robot vs. Person Grinding Challenge!

Brought To You by 3M Abrasives | May 23, 2023

Get ready to witness the ultimate grinding showdown between person and machine, featuring the next-generation 3M™ Cubitron™ II Cloth Belt 984FX Pro. In this video, 3M put their belt to the test, grinding down a 3-pound solid steel hammer with both a skilled operator and a state-of-the-art robot.

Discover how the re-engineered 3M Precision-Shaped Grain technology takes grinding speed and belt life to new heights. Their longest-lasting, fastest-cutting belt will amaze you with its performance, boosting productivity and minimizing belt changes in both manual and automated applications.

Experience the unique triangular ceramic grain, designed to wear evenly, run cool, and stay sharp throughout the belt's lifespan. Say goodbye to metal discoloration and other heat-related issues, thanks to the belt's cooler operation.

Witness how the 3M Cubitron II Cloth Belt 984FX Pro cuts with less pressure, reducing the demands on operators and allowing them to work more efficiently. See how the 3M Cubitron II Cloth Belt 984FX Pro truly excels in automated applications (*music only, no transcript*).
