VIDEO: MakerBot PRO Series | Manufacturing | Customer Stories

Brought To You by MakerBot | May 28, 2024

For manufacturers All Axis Robotics and KUKA, the MakerBot's 3D printer platform has proven to be a key asset across multiple professional applications. With the materials and finish capabilities of MakerBot's 3D printing platform, both teams at All Axis Robotics and KUKA are able to go one step further and create production parts in-house, something that it wasn't capable of achieving previously.
