VIDEO: ADAPTIX In-Machine Adaptive Workholding Demo

Brought To You by Norgren | Aug 27, 2024

In this video, Norgren showcases their ADAPTIX™ Workholding in tandem with the Kurt DX6 Rev A vise base. Witness the ADAPTIX's versatile capability to form a reliable grip around a variety of part profiles. This advantage allows manufacturing facilities to more strategically leverage their time, resources, and process for better business outcomes.
