VIDEO: Durability, Longevity, Great Value: Mitutoyo Vision Measuring Systems

Brought To You by Mitutoyo | Oct 01, 2024

Vision Measuring Systems From Mitutoyo, featuring the Quick Scope, Quick Image, MiSCAN, and Quick Vision Active, Apex and Stream, represents the most comprehensive lineup of vision measuring machine metrology products in the world. Mitutoyo's vision measuring systems include cutting edge capabilities such as 0.25 micron accuracy, sub-pixel automatic edge detection, tracking autofocus, unparalleled focus capability and speed and unique patented light adjustment tools.

Mitutoyo's Quick Scope and Quick Image series offer easy to use, economical, benchtop vision inspection solutions with capabilities that surpass the competition and features you would expect from higher-end machines. Pattern recognition, measurement macro playback, and automatic light controls and edge detection are just a few examples of the inspection capabilities these machines have to offer.
