

Fall Protection and Training

VIDEO: TOOLING UP: Guide to the ANSI Z359 Fall Protection Updates

| Dec 09, 2024

Video Highlights

In this episode of MSC's Tooling Up, Toni Neary sits down with Don Crawford, Safety Training Specialist at Honeywell, to discuss the critical topic of fall prevention and the latest updates to ANSI Z359 standards. Drawing from his extensive 31-year background in public safety as a firefighter and paramedic, Don shares personal insights into the importance of proper fall protection, emphasizing how life-saving equipment and comprehensive training can make all the difference.

The conversation delves into Honeywell's innovative Class 1 and Class 2 fall protection systems, highlighting advancements in self-retracting lifelines and solutions for leading-edge work environments. Don explains how these updates simplify compliance and enhance worker safety, especially in high-risk industries like construction and manufacturing.

Don't miss this engaging episode, packed with real-world expertise and actionable safety tips, as Toni and Don explore how Honeywell continues to lead the way in fall protection innovation. Learn more about the latest ANSI standards and how to stay safe at heights, only on Tooling Up.
