## Milwaukee® Unlocks a New Level of Battery Power for the M18™ System

Brought To You by Milwaukee Tool | Mar 06, 2025

Since 2005, Milwaukee Tool has remained committed to investing in technology that drives productivity, working to revolutionize jobsites everywhere. Through this dedication, Milwaukee has been relentless in their mission, constantly increasing cordless system capability without sacrificing compatibility. With the introduction of REDLITHIUM™ FORGE™ Batteries and Super Chargers in 2023, Milwaukee defied expectations of cordless performance and productivity, significantly advancing the capabilities of the M18™ and MX FUEL™ systems.

Now, Milwaukee is unlocking a whole new level of power and capability for the M18™ system, introducing the new M18™ REDLITHIUM™ FORGE™ HD12.0 and M18™ REDLITHIUM™ FORGE™ XC8.0 batteries. These most recent expansions deliver professionals the most power, fastest charging, and longest life REDLITHIUM™ batteries, fully compatible with 275+ M18™ solutions.

**“This is a significant leap forward in capabilities for the M18™ system. Through a ground-up redesign that combines new tabless cell technologies, upgraded pack construction, and improved power routing to deliver a step change in capability, these batteries are redefining cordless power. ”**

Andrew Lentz

Senior Vice President of Product Management for Milwaukee Tool

“This is a significant leap forward in capabilities for the M18™ system,” explained Andrew Lentz, Senior Vice President of Product Management for Milwaukee Tool. “Through a ground-up redesign that combines new tabless cell technologies, upgraded pack construction, and improved power routing to deliver a step change in capability, these batteries are redefining cordless power. To further maximize productivity on the job, the new M18™ REDLITHIUM™ FORGE™ HD12.0 and XC8.0 batteries are COOL-CYCLE™ capable. Pairing them with the COOL-CYCLE™ capable M18™ Dual Bay Simultaneous Super Charger delivers unmatched productivity by achieving high-speed cooling, minimizing downtime previously spent waiting for hot batteries to charge. With relentless dedication to innovating cell, pack, electronics, and charging technology, we are delivering the best cordless experience on the market.”

### OVERVIEW: M18™ REDLITHIUM™ FORGE™

M18™ REDLITHIUM™ FORGE™ is a significant advancement in capability, achieving the most power,

fastest charging, and longest life of any batteries on the M18™ system. With significant advancements from the ground up, M18™ REDLITHIUM™ FORGE™ integrates new cell technologies, upgraded pack construction, and next generation electronics to deliver the most powerful and efficient battery performance required by professionals in high demand applications. Every M18™ battery, including these newest breakthroughs, provides full compatibility with over 275+ M18™ solutions.
