

Personal Protective Equipment

Ready to take the next step towards Zero Waste?

Brought To You by Ansell | Mar 06, 2025

The RightCycle™ Program is the first large scale recycling program for non-hazardous Kimtech™ and KleenGuard™ branded PPE. It has helped hundreds of customers divert more than 5.5 million pounds of waste since 2011¹.

Eligible items include:

- Nitrile & latex gloves
- Protective eye wear
- Apparel, masks & accessories
- Flex-film packaging

Easy Implementation

Ansell supports you to ensure success. They walk you through enrollment, every step of the way. They can help generate excitement in the RightCycle™ program with an employee kick-off event that they help organize. All you need to do is:

1. **Enroll in Wastebits*** to generate a waste profile for each shipment and receive landfill diversion metrics.
2. **Arrange for shipment** with your own preferred vendor or through *freightcenter.com* that offers discounted rates for RightCycle™ participants.
3. **Celebrate your accomplishments** during Earth Month through PR and social media materials.

Ansell's Commitment to Sustainability

In 2023, Ansell proudly announced their 2024 Sustainability Action Plan: *Thinking of People and Planet First*.

- Net Zero emissions in their operations.
- 100% renewable electricity.
- All plants to have certified Energy Management Systems (ISO 50001)
- Zero waste to landfill.
- Reduce water withdrawals by 35%.

Progress against these targets are highlighted in their *2023 Sustainability Report*.
