## **VIDEO: FIX8: Medium Machining and Roughing**

Brought To You by Kennametal | Apr 22, 2025

FIX8 is capable of large depths of cut (up to 12mm) and feed rates (up to 1.4mm), ensuring the highest possible metal removal rates in steel, cast iron and stainless steels. It's ideal for uninterrupted cuts, interrupted cuts AND heavily interrupted cuts. With 15% less cutting forces, FIX8 is also well suited for low horsepower lathes.
