

How-to

Video: Selecting Cutting, Grinding & Combo Wheels

Brought To You by Weiler | Feb 22, 2018

Rick Hopkins from Weiler Corporation makes simple recommendations on which cutting, grinding or combination wheel is best suited for your application.

Video Highlights

- Proper use of any product always begins with proper safety. **PPE** should always be worn during operation of any power tool. This includes a guard that is properly rated for the size of the wheel and mounted correctly.
- Tiger bonded abrasives for use on steel or stainless...
- Spend more time working, and less time changing wheels
