

Employee Safety

VIDEO: Heat Stress and Dehydration

Brought To You by Sqwincher | Apr 23, 2018

Video Highlights

Workers who are exposed to extreme heat or work in hot environments run the risk of:

Heat Cramps: Fatigue, confusion, painful muscle spasms in the arms, legs or abdominal areas.

Heat Exhaustion: Fatigue, confusion, clammy skin, nausea, low blood pressure, rapid pulse, fainting.

Heat Stroke: Fatigue, confusion, collapse, unconsciousness.
