IMTS 2018 VIDEO: How to Straddle the Skills Gap with Automation

| Sep 12, 2018

Video Highlights

- On the verge of evolving from a midsized producer to a large-volume machining shop, Augustine Die & Mold looks to more efficient processes and automation to meet customer demands despite a skills gap.

As Augustine Die & Mold, a company in Somerset, Pennsylvania, grew rapidly during the last couple of years—evolving from a tool and die shop to a precision-machining business—it began to struggle with meeting customer demands.

The skills gap was a critical factor, CEO James Brown says.

Brown shares how the company collaborated with MSC to implement new tooling processes alongside automated machining to better manage its skills gap.

Participants:

- James Brown, CEO, Augustine Die & Mold
- Jamie Goettler, Metalworking Sales Leader, MSC
