IMTS 2018 VIDEO: Success—How One Holemaking Tool Replaced Three

| Sep 12, 2018

Video Highlights

- A machine shop's holemaking was bogging down production, creating delivery delays. A discovery process uncovers the source of the problem. MSC metalworking specialist Melanie Amarosa shares what she found and how the pain point was solved.

The holemaking process for one plate had become a problem for a machining shop—bogging down its entire production flow.

A discovery process uncovers the culprit (culprits, actually). An MSC metalworking specialist shares what she found and how the pain point was solved.

Participant:

- Melanie Amarosa, Metalworking Specialist, MSC
