VIDEO: Work Smarter Without Working Harder

Brought To You by Norton Abrasives | Jan 03, 2019

Norton Quantum3 technology sets a whole new bar for the performance of your grinding and cutting wheels – but with a distinct advantage to the user. These aggressive wheels are specifically designed to deliver industry leading, relentless grinding and cutting action with the highest operator comfort.

What do we mean by comfort?

- Less vibration for easier operator control
- No grabbing or digging when used in any direction
- Free-cutting control that boosts amperage without additional pressure
- Gliding action through the workpiece while removing metal

All this boils down to less operator fatigue and increased grinding output – using Norton Quantum3 can have a direct benefit to your grinding labor costs. Our Norton Quantum3 combo wheels have a 50% longer life and 15% higher productivity compared to the leading competitive wheel, all with the Norton Quantum3 comfort difference you can feel.

Norton Quantum3 combo wheels are suitable for a broad range of applications including general fabrication, oil rig building and repair, rail, container, and pipeline manufacturing.
