Sign Identification & Legibility

OSHA and ANSI require signage to indicate and define specific hazards that, without identification, may lead to injury or death. Review the signs with the headers that indicate the degree of hazard in your application.

DANGER
⚠ DANGER

Use **DANGER** to indicate an immediate hazard which has a high probability to severe injury or death.

WARNING
⚠ WARNING

Use **WARNING** to indicate a potentially hazardous situation which, if not avoided, can result in serious injury or death.

CAUTION
⚠ CAUTION

Use **CAUTION** to indicate a potentially hazardous situation which may result in minor or moderate injury, but not death.

NOTICE
NOTICE

Use **NOTICE** to provide general information needed to avoid confusion.

SAFETY FIRST
EMERGENCY

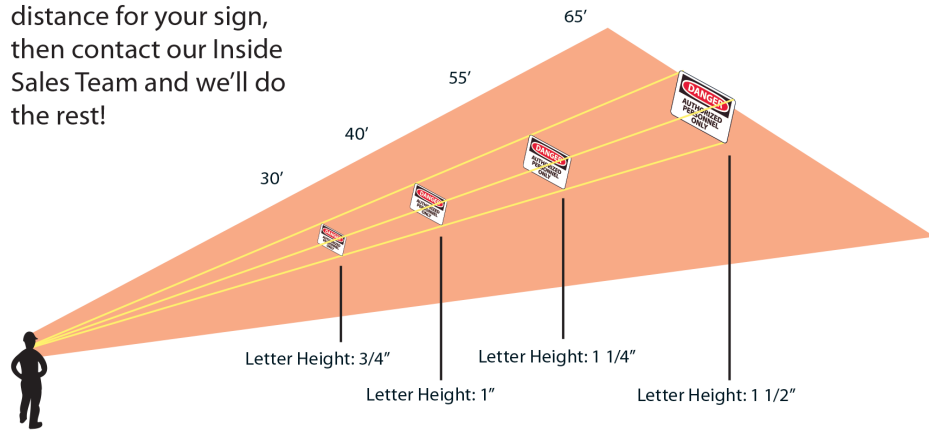

These and similar headings are used with information about housekeeping, first aid, health, medical equipment, sanitation and general safety.

Guide to Sign Legibility

Guide to Sign Legibility

Viewing Distance	Letter Height
30'	3/4"
40'	1"
55'	1 1/4"
65'	1 1/2"
75'	1 3/4"
85'	2"
115'	2 1/2"
135'	3"
150'	4"
200'	6"
350'	8"

Determine the viewing distance for your sign, then contact our Inside Sales Team and we'll do the rest!
