ASSP Safety 2019 Video: Avoiding No. 1 and No. 8 on the OSHA Top 10

| Jun 11, 2019

Video Highlights

- See how training and the right safety gear can help avoid OSHA fall protection and fall protection training violations.
- Find out how products—such as harnesses and tool tethers from Pro-Safe, and matting from Ergo Advantage, Pro-Safe and Wearwell—are evolving.
- Pick up tips to help your workers avoid slips, trips and falls.

Participant:

- Bruno Cunha, Safety Specialist, MSC

With the lead spot on the OSHA Top 10 list of violations, fall protection remains a challenge for manufacturers both big and small.

We dive in to share details about how both tools and training can help with falls from above 4 feet and at ground level.
