9 Out of 10 Americans Eat Too Much Sodium

Brought To You By Sqwincher | Jul 02, 2019

On average, American adults eat more than 3400 milligrams of sodium daily, more than twice the recommended daily allowance as reported by the American Heart Association. To help combat this, Sqwincher's products are proven to be low sodium for the everyday industrial worker. They offer a full line of activity drinks to refuel your body by replacing fluids and essential electrolytes lost to dehydration and physical exertion.

TOO MUCH SODIUM

On average, American adults eat more than 3,400 milligrams of sodium daily – more than double the American Heart Association's recommended limit of 1,500 milligrams.

*Source: Centers for Disease Control (CDC)

- Choose lower-sodium foods and cook at home more often.
-  Look for the Heart-Check mark to find products that can help you make smarter choices about the foods you eat.
- Check the Nutrition Facts label for the amount of sodium per serving AND the number of servings per container.
- Read food labels. Assorted brands of the same food often have different sodium amounts.

Excess sodium increases a person's risk for **HIGH BLOOD PRESSURE**, which can lead to heart disease and stroke
