ROI and Long-Term Value

Brought To You by Wearwell | Nov 04, 2019

Matting is often overlooked—until something happens:

The Issues:

Fatigued workers cost productivity between \$1200 and \$3100 per year.

The Stats:

- Fatigued workers cost productivity between \$1200 and \$3100 per year (*National Safety Council*)
- Overexertion is the #1 reason for lost workdays (*National Safety Council*)
- Slips, trips and falls are the #3 reason for lost workdays
- The average cost of a slip and fall claim is \$41,531

Avoid becoming a statistic with the right matting program!

What is your company doing to tackle injuries? What type of fatigue reduction program do you have in place? What active steps are you taking to reduce absenteeism?

These are the kinds of questions Wearwell will help you resolve. Don't make the mistake of randomly placing mats down here and there.

Wearwell's matting experts will come to your facility and perform a professional recommendation based on your particular concerns.
