

How-to

Video: How to Select the Correct Abrasive to Blend a Weld

Brought To You by Norton | Nov 06, 2019

Video Highlights

You have three options when using a right angle grinder to blend a weld:

1. The depressed center wheel
2. A flap disc
3. A fiber disc

To find the right product for your application, see Norton's line of abrasive products at [MSCDirect.com](https://www.mscdirect.com).
