

SAFETY SHOE & PRESCRIPTION EYEWEAR PROGRAMS

SAFETY SHOE PROGRAM

Create a safer work environment for your employees while offering them the convenience of MSC's Safety Shoe Program. **Safety footwear is designed to protect workers from the following common workplace hazards:**

- Injuries from falling & flying objects
- Slips, trips and falls
- Punctures and cuts due to sharp objects
- Burns
- Electrical injuries
- Fatigue and musculoskeletal conditions
- Extreme temperatures

Today's safety shoes are durable and built with innovative technology to make them lighter and more comfortable, and they are designed to improve worker performance and reduce fatigue.
